Robin , my dear loved nephew. I just heard about your passing. It breaks my heart to hear this very sad news. I wish I had known about you when it happened. Robin, I remember very well all the talks you and I had about this. I prayed that I had talked you out of it, but now I see I didn't. Robin I remember the day you were born. You were so cute and I loved you then and I love you now. I will always love you , now and forever. I have 1 regret, that I was not there for you to talk to about this. Had I been, maybe just maybe I would have been able to talk you out of doing this to yourself. But I wasn't there for you this time and I feel that I let you down. I remember all the times when you had things bothering you and you would say to me ,Nana can you and I talk. And you and I would talk for hours and we would cry our eyes out and hug each other. These talks I will never forget. I have so much I want to say to you Robin. I remember the time I took you to Stockbridge Wal-Mart and brought you some tennis shoes to wear cause you need them. And you were so happy just to have new shoes. And the times you would call my house and ask me if I would come pick you up and take you up to the store and buy you some smokes , cause you needed them and was out of money. And I would tell you to meet me at the end of the driveway and when I got there , you would be standing there waiting on me. I remember the time you broke your arm and was in a lot of pain but you didn't want to go to the hospital. And I finally talked you into letting me take you. hey and what about the night you and the boys were up at my house and you was out in the tool shield messing around with the radio going full blast and Steve , Bill and myself decided to play a joke on you and the boys put the radios outside the shield and started talking in police code and you would turn the radio down and look all around outside thinking the law was there. And after us doing this a few times to you , you ran out of the shield to the house just yelling that the police was after you and Steve your brother was standing outside beside the tree and you ran right pass him , never even seeing him. When you got inside the house me and the boys told you what we had done and we were laughing our butts offs And you got so mad at us , that you would have killed us for doing that to you if you could have. I laughed so hard that night , that I wet my pants and then you and the boys started laughing at me for wetting my pants. We all had a great laugh that night. We laugh until our sides hurts. That was so funny. And one day it was about 95 degrees outside and Steve and Bill were up at my house and you were at home and you called my house asking if you could come up. I stood you sure you could come. So you jumped on your bike and rode it from your mothers house all the way to my house, we you started to come around the big curve behind my house you were padding that bike as hard as you could , and me and the boys were watching you out my living room back door , we were laughing our asses off watching you come around that curve on the bike. You were so tired and hot when you walked into my front door. We all had a great laugh on that one to .

Robin, we had so darn much fun with each other. I'll never forget these great and wonderful times we had. There were so many of them I can't tell all of them here. But they will remain forever in my mind and heart. Just as you will always have a special place in my heart. You always have and you always will. Robin I miss you so much , that it hurts inside. It's been a week now since I heard the news. I have cried day and night over you . Robin , my sweet and wonderful nephew, I really hate that you a gone. But you are in a much better place now. No more pain, sorrow. crying . You are in a place were the sun is always shining baby. And one day when God calls me home I will met there, by the clear flowing river that's runs by the throne of God. And then you shall take me by my hand and we will by around heaven , you showing me all the beauty in Heaven. S
