“ Twenty five years ago, I met an amazing woman, that became such a big part of my life! At age 24 I worked in plant 4 (pour up area) with Susan. Susan would amaze me on how well she knew the formula to the chemicals. Susan you will be in our hearts and memories forever!

“ Thinking of you Kenneth. I am so very sorry for your loss. I know how much you loved Annette. Loved hearing of your trips to Alabama with Annette. I feel like I knew her. I could truly see the love in your eyes every time you mentioned her name and to see you suffering with what Annette was enduring is just heartbreaking. I want you to know that you and Annette are in my prayers and I will continue to pray for you. Please take care of yourself.

“ I had the honor of working with Susan at Bio-Lab for 16 years. I was promoted to plant 4 supervisor and talked Susan into taking the Lead person position to help me out. Susan was a outstanding worker but more importantly a great friend and person. I remember talking for many years while we worked together speaking about our kids and spouses and how lucky that we were to have all the great things in our lives. I hated racing but Susan turned me into a race fan with her stories and passion for the sport and she loved Jeff Gordon. I had heard about her passing from a another worker that was at Bio-Lab this morning, and I wish we had stayed in touch, but I always remember Susan for her dedication to family and work, and she was a great friend and helped me so many ways from work to family issues while going through a divorce. You will be truly missed and I was glad to know you though work and the friendship we formed for 16 years. R.I.P.
